EPT1000.R7		1000 µL	for capacities from 100 µL to 1000 µL, without graduations mark	Yes	10 box x 100

EPRO NoLoss OceanTips™ are made of high-quality natural polypropylene.

Flexible flange for compatibility with most pipettes.

Autoclavable at 121 °C for 10 - 15 minutes at 15 PSI.

The tips will retain their properties, shape and elasticity of the flange.

RNase, DNase, human DNA and pyrogens, PCR inhibitors and endotoxins free.
