

EPRO OceanTips™ Smart Tray, sustainable ecological system tips for automatic pipettes

Catalog number		Capacity	Description	Sterility	Packing
EPT10.ST		10 µL	for capacities from 0.1 µL, with graduations at 2 µL and 10 µL	No	10 trays x 96
EPT10XL.ST		10 µL	for capacities from 0.1 µL, extended - 45,34 mm, with graduations at 2 µL, 5 µL and 10 µL	No	10 trays x 96
EPT200.ST		200 µL	for capacities from 1 µL to 200 µL, with graduations at 10 µL, 50 µL and 100 µL	No	10 trays x 96
EPT1250.ST		1250 µL	for capacities from 50 µL to 1250 µL, with graduations at 200 µL, 500 µL and 1000 µL	No	8 trays x 96

EPRO OceanTips™ are made of high-quality natural polypropylene.

Flexible flange for compatibility with most pipettes.

Autoclavable at 121 °C for 10 - 15 minutes at 15 PSI.

The tips will retain their properties, shape and elasticity of the flange.

RNase, DNase, human DNA and pyrogens, PCR inhibitors and endotoxins free.
