Overview

Axygen® universal pipette tips are designed to fit a wide variety of single- and multi-channel pipettors. Flexible walls and a series of internal sealing rings ensure a secure fit with less force required to load and eject.

The Axygen product offering now also includes the Axygen MultiRack System, which is our updated reload and racking system. In addition to the universal fit tips packaged in the MultiRack System, we now also offer LTS Compatible tips in the MultiRack System, and if you are worried about your carbon footprint, the Axygen HybridRack™ is a perfect option for you.

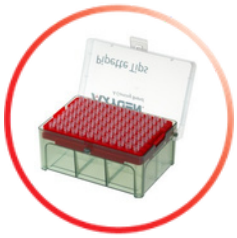

Automated assembly – Ensures product is free from contamination.
ISO 13485 and ISO 14001 – Certified quality management systems supply stringent quality processes to ensure the highest quality finished good.
In-house testing – In-house QA lab allows product to be validated for fit, form, and function prior to release.
Brand you can trust – A long track record of innovation and value as one of the Corning trusted brands.
Broad product offering – Corning offers many different styles of pipette tips, including bulk, racked, filtered, reloads, Tip Station, and our environmentally friendly HybridRack. With so many options, you are sure to find a tip that works for you.
Low retention technology – Pipette tips are available with the Axygen MaxRecovery+™ technology, our advanced technology to maximize sample recovery.

Axygen® Universal Pipette Tips

Redesigned for the modern researcher.

For more than 20 years, Axygen Universal pipette tips have set the standard for quality, accuracy, and precision in laboratories worldwide. Now redesigned to meet every researchers needs, the next generation of Axygen Universal pipette tips deliver improved pipettor compatibility, durable hinged racks, and a complete offering from 10 µL to 1200 µL. Featuring tips with extended length, wide bore designs for viscous solutions, Axygen Universal pipette tips are sure to meet and exceed your liquid handling expectations.

- RNase-/DNase-free
- Human gDNA-free
- Nonpyrogenic
- USP Class VI polypropylene

Axygen Universal Pipette Tips

Reload, Non-filter
Standard Surface

Cat . No .	Volume (µL)	Pack Type	Sterile	Quantity
PRFL-300-C	0.5 - 10	Reload	Yes	10 trays x 96 tips
PRFL-200-C	1 - 200	Reload	Yes	10 trays x 96 tips

Related Products

NoLoss™ Tubes, clear, low binding, flat cap, pre-sterile

Cat . No .	Description
ET0.65.7	0,65 mL low binding microcentrifuge with flat, sealed cap
ET1.7.7	1,7 mL low binding microcentrifuge with flat, sealed cap
ET2.0.7	2,0 mL low binding microcentrifuge with flat, sealed cap

NOTE: Other options are available, including standard microcentrifuge and PCR tubes.
